

# Skill Building Improv Workshops

Length: 1-2.5hrs

Delivery modes: Onsite & Virtual Presentation; Pre-recorded tutorial.

Details: Improv workshops are a popular way to develop essential business skills such as assertiveness, communication, collaboration, critical thinking, lateral thinking, interpersonal skills, risk taking, creativity, agility and adaptability.

This session provides creative tools to support the development of personal and organizational skills.

The training aims to boost communication using an informal approach. Participants are led through various practical exercises that develop listening/social/presentation/conversation/quick thinking skills.

This session enables participants to come out of their comfort zone and can provide inspiration for dealing with awkward situations at work, and boosting confidence
